HARBOR, RIVER AND MARINE NEWS

Shipping Transactions and Notes of Interest Along the Bay Front.

One arrival was reported yesterday. This was the British steamship Wathfield, 2113 tons, five days out from Vera Cruz in water ballast. The steamer is consigned to H. Baars & Co., and will all out with timber.

Astoria Sailed.
The Danish steamship Astoria, Neergaard, got away at daylight yesterday, clearing the day before for several ports, with a large lumber cargo, chiefly for London.

Naval Stores.
Two hundred and eight barrels of naval stores were received at Central Wharf yesterday. The steamer Rollo, from Yellow River, brought 100 barrels, and the schooner Grady S. 108 barrels.

Vessels Shifted.
After taking a part cargo from Commandancia dock the steamer Taptan yesterday afternoon moved into the stream to complete cargo.

The Norwegian bark Freia early yesterday was docked at the east side of Palafox wharf to take out ballast. The bark Mario, which has just taken out ballast, was lashed alongside the Freia and yesterday was loading lumber from a schooner and lighter.

After discharging a cargo of cedar and mahogany logs from Belize, the Norwegian steamer Nor moved into the stream yesterday to take cargo.

After loading from several lighters, the Norwegian steamer Oddersjaa, now at Baylen wharf, will move to the stream to complete cargo.

Manteo and Tarpon.
The Manteo and Tarpon both came in early yesterday morning from Mobile, bringing large consignments of assorted goods for local merchants.

The Manteo sailed in the forenoon while the Tarpon got away at 8:30 o'clock last night. The Tarpon carried seven head of livestock to Millville.

A Mile Officially Defined.
The naval hydrographic office recently issued a circular which is a reply to numerous requests as to the difference in the length of a sea mile or nautical mile, a geographic mile and a statute mile. This is the official information:

"In the United States the sea mile, or nautical mile or knot, used for the measurement of distances in ocean navigation, has a length of 6,080.27 feet; in France, Germany and Austria the nautical or sea mile has a length of 6,096.23 feet; in England the nautical mile, corresponding to the 'Admiralty knot,' is 6,080 feet. The geographic mile, which is the length of one minute of longitude of the equator of the terrestrial spheroid, is 6,087.15 feet long. The statute mile, principally in measurements on land, is 5,280 feet."

Receipts, barrels 2,559
Shipments, barrels 1,520
Stocks, barrels 150,583

By Associated Press.
New York, August 31.—The stock market opened without any of yesterday's excitement. The only conspicuous changes were advances of 1 in Union Pacific, preferred, and of substantial fractions in Great Northern, preferred, Rock Island, preferred, and American Smelting. Prices were higher all round, but the average of gains was small.

STOCK MARKET.
The slight gains made at the opening were lost when selling orders made their appearance. A subsequent brisk demand for Reading started general buying, which developed considerable strength in some minor stocks. The Harriman group sold a trifle above their opening figures. American Telephone and Telegraph and Western Union advanced 2 points; Reading, Kansas City Southern and Great Northern Ore certificates, 1 and Northern Pacific, 1/2. Union Pacific, preferred, 1/2; St. Louis and Western, General Electric, American Ice, American Locomotive and Steel, 1/2; Southern Railway, 1/2; American Woolen, 1/2; Reading moved up again to its best price.

The market took a downward turn after 1 o'clock and lowest prices of the day were made on small offerings. Active stocks ruled fractionally below yesterday's figures.

MERCANTILE PAPERS.
New York, August 31.—Close: Prime mercantile paper, 4 1/2-4 3/4 per cent; sterling exchange, weaker, with actual business in bankers' bills at 48 1/2-48 3/4 for sixty-day bills, and at 48 1/2 for demand. Commercial bills, 4 1/2-4 3/4; bar silver, 52c; Mexican dollars, 46c; government bonds, steady; railroad bonds, irregular.

MONEY.
New York, Aug. 31.—Money on call firm, 2 1/2-2 3/4 per cent; ruling rate, 2 1/2 per cent, closing bid, 2 1/2 per cent, offered at 2 1/2 per cent. Time loans firmer and active; sixty days 3 per cent; ninety days 3 1/4-3 1/2 per cent; six months, 4 per cent.

COTTON.
New York, August 31.—The market opened firm at an advance of 4/64 points, and sold 7 to 9 points net higher during the early session on bull support and covering, caused by the strength of Liverpool in the face of heavy tenders, the bullish national ginners' report and a report on Texas and Oklahoma by a local authority showing a deterioration in conditions for the month. Realizing was sufficiently light to check the advance but only slight reactions occurred with the market holding steady during most of the morning.

Receiving continued late in the first hours, but the publication of another bullish private report making it 45.7 against 23.3 last month, helped to sustain the market and prices at midday advanced 1/4 to 1/2 points net higher. Spot, quiet; middling uplands, 12.90; middling, 12.15; good middling, 12.30. Cotton futures opened steady. September offered at 12.48; October, 12.51; November, 12.54; January, 12.58; March, 12.60; May, 12.62.

Spot closed quiet, 10 points decline. Middling uplands, 12.30; middling, 12.15; good middling, 12.30. Sales, 800 bales.

GRAIN AND PROVISIONS.
Chicago, August 31.—The wheat market recovered a large part of the loss sustained on the previous session during early trading to-day as a result of active buying by shorts and commission houses. Demand was insured by firm cables and by smaller receipts in the northwest than had been generally expected. Prices advanced 1/2 to 1/4 cent, with 1-1/2-1-3/4 higher, with September at 97 3/4-98 1/4, and December at 92 3/4-93 1/4. Early in the session, September sold at 98 1/4 and December at 84 1/4.

An advance of approximately 1c in the price of December was higher 1-1/2-1-3/4. The feature of early trading in the corn market. Commission houses in general were active bidders for the deferred months. The September option was inclined to drag. The market opened easy and prices advanced 1/2 to 3/4 cent. September sold at 64 3/4-65 1/4, while December advanced to 62 3/4-63 1/4, after opening at 62 3/4-63 1/4.

EMINENT OCULISTS AGREE

That the gas lamp with mantle is very much easier on the eye, and more restful to it than any other form of modern lighting. Dr. E. J. Gardiner, discussing this matter before the Illuminating Engineering Society on February 13, 1908, says: "In artificial lighting the light should come from as large a surface as possible."
